European Network for Sustainable Tourism Development 1993 – 2018

"25 years ago we started to add little stones to the global mosaic of sustainable tourism development, creating networks to share knowledge with an ever-growing list of like-minded colleagues.

Tourism2030 contains all the fruits of our past collaborative work, a feast of tourism wisdom we can all use to make our common future the best it can be – for people, planet and prosperity for all."
