ITB 2018 Launch Event
Thursday, 8th March 2018
Room VIP 1 (Großer Stern)
14:30 - 15:30 hrs.

Funded by the
Erasmus+ Programme
of the European Union

“An evidence based proof that "through tourism" we have accelerated the shift in areas beyond the tourism activity - i.e. tourism as an agent of positive change”

Anonymous

Travel. Enjoy. Respect.

UN

Climate Change - Energy and Resource Efficiency, Cultural Heritage, Life Styles & Diversity

“If the cruise liners get along without heavy fuel, land excursions are sustainably certified, heliskiing is no longer offered, mountain railways have a sustainability certificate (like now the first Sattel-Hochstucki AG), that forum anders Reisen has 1,000 members”

Dr. Peter Zimmer
FUTOUR Tourismusberatung

Germany

Certification & Marketing, Destination Management,

“Biodiversity Action Plans included in the management of all tourism destinations and tourism companies. 30 % Restoration of ecosystems which have been destroyed or degraded by tourism:
Coral reefs, mangrove forests and mountains”

Marion Hammerl

Lake Constance Foundation

Germany

Destination Management, Natural Heritage & Biodiversity, Value Chain Management & Fair Trade

“The many commitments in the tourism industry for supporting sustainable development must be followed by concrete action. The green growth in tourism should be in 2022 at 3% and in 2026 at 6%. Why not achieve 10% in 2030? ”

Herbert Hamele

Ecotrans

Germany

Certification & Marketing, Good Governance & CSR, Value Chain Management & Fair Trade,

“2022 - All governments signed up to a the 2020 Biodiversity Declaration present implementation funding requirements
2026 - Global to local funding of Biodiversity Action Plans securing all threatened key species and habitats as defined by IUCN, UNESCO and SSSIs.
2030 - Positive monitoring report on habitat and species stabilization”

Gordon Sillence

Ecotrans

United Kingdom

Good Governance & CSR, Natural Heritage & Biodiversity,

“Significant uptake of sustainably certified businesses”

Randy Durband

GSTC - Global Sustainable Tourism Council

USA

Certification & Marketing, Destination Management, Good Governance & CSR

“local: Stakeholder on local Level working together for more income, better Job conditions and for sustainable Transport”

Karl R.

ÖAR

Austria

Certification & Marketing, Destination Management, Travel, Transport & Mobility, Value Chain Management & Fair Trade

“Change the way we define and measure success and include sustainability indicators publicly reported”

Ronald Sanabria

Rainforest Alliance

Costa Rica

Climate Change - Energy and Resource Efficiency, Destination Management, Natural Heritage & Biodiversity

“All tourism stakeholders are accepting to work according the SDGs.
All tourism companies have installed an sustainability management system.
Greenhouse and other dangerous emissions of touristic sector incl. flight industry is
decreasing every year instead of increasing.
Politics and international regulations will give the right and powerful incentives to
organise tourism in a sustainable way”

Marco Walter

ECOCAMPING

Germany

Certification & Marketing, Climate Change - Energy and Resource Efficiency, Natural Heritage & Biodiversity, Travel, Transport & Mobility

“To multiply concretely described cases of tourism having supported one or more of the 17 SDGs (or 169 targets). More focused on the SDGs 14 & 15: by 2022: LT&C-Examples quadruplet ; 2026: 10X; 2030: 100X”

Peter Prokosch

Linking Tourism & Conservation (LT&C)

Norway

Destination Management, Knowledge Networking, Training and Education, Natural Heritage & Biodiversity

“Fossil free tourism transports by 2030 ”

Mikael Backman

International Institute for Industrial Environmental Economics (IIIEE) at Lund University

Sweden

Climate Change - Energy and Resource Efficiency, Travel, Transport & Mobility

“We can distinguish that the local people are increasingly involved in design and preparation of development activities covering the whole cycle of the project and program; the skills and competences have been strengthened due to the development activities; the local conditions have improved and continue to do so after the project/program activities as the achievements are integrated into the local livelihoods and living of local people. Human beings are considered to be the core of investments in the sustainable destinations”

Pekka Alhojärvi

Silvacultura Ltd.

Finland

Cultural Heritage, Life Styles & Diversity, Knowledge Networking, Training and Education, Natural Heritage & Biodiversity

“SUNx has been developing a climate responsive system for Impact-Travel Learning, Innovation and Resilience. It is based on a network of cloud connected, solar powered, pre-fabricated Centres for local Community focus.

The proof of concept centre will be launched in 2018 – focused on community climate resilience and Impact-Travel; with a progressive roll-out, for UN regions and Belt & Road states after that. Our game-plan calls for a major thrust in 2020 linked to the International Expo with at least one in every country by 2030, geared to the SDG and Paris Accord programs. We are developing collaborative partnership outreach in the framework of SDG 17.”

Geoffrey Lipman

SUNx - Strong Universal Network

Belgium

Climate Change - Energy and Resource Efficiency, Destination Management, Good Governance & CSR

“Expanding the Sustainable Destinations Top 100 to a Top 1000,
simply because there are so many places with excellent
sustainability efforts”

Albert Salman

Green Destinations

Netherlands

Certification & Marketing, Destination Management, Knowledge Networking, Training and Education,

“The solution takes us back to mainstreaming. The milestone would be to have tourism destination plans that include in their priorities the need to limit and manage tourism in certain areas as well as overall resource use. They should also give priority to investment in green infrastructure and technology, especially in transport, and take account of total emissions in market prioritisation, such as encouraging nearer markets where possible. Management skills and capacity should be increased where necessary and destinations should actively identify and promote sustainability certified businesses”

Richard Denman

The Tourism Company

United Kingdom

Climate Change - Energy and Resource Efficiency, Destination Management, Travel, Transport & Mobility

“Ensuring tourists are in part responsible for infrastructure required, and this is done in a planned way”

Anonymous

New Zealand

Climate Change - Energy and Resource Efficiency, Destination Management, Travel, Transport & Mobility

“E tangi ana nga reanga o uta, e mahara ana nga reanga a
taima ta aha ra e whakamahana taku ora kia tina – When the
land, river and sea creatures are in distress then I have nothing to
be proud of”

Ngātiwai proverb

New Zealand

Climate Change - Energy and Resource Efficiency, Destination Management, Travel, Transport & Mobility

“Best practices should be the rule and not the exception”

Diego Núñez

“Worldwide consensus (or at least being on transparent indicators and measuring methods on what can be considered as “sustainable tourism practice””

Eva Becker

Centro Bartolomé de Las Casas

Peru

Human Rights & Labour Rights, Natural Heritage & Biodiversity, Value Chain Management & Fair Trade

“I suggest a 4-year milestone to 2022 – much longer periods are counterproductive.
Two parallel initiatives by 2022:

For point 2 above:

A global campaign is launched on consumer awareness for sustainable consumption of tourism (such as “Your Travel Choice Makes a Difference”) led by trade associations and governments, with engagement of celebrities, media and opinion formers;

A global compilation of best practices on technical and financial incentives for sustainable tourism businesses certified through GSTC-affiliated standards is formulated into a coherent set of guidelines and distributed widely by all 10YFP partners

For point 3 above:

- Launch of a specific initiative, supported by key players in the sector, for capacity building and technical and scientific cooperation of park agencies and the tourism sector on payback mechanisms for stewardship and management of natural attractions, ecosystems and biodiversity. ”

Oliver Hillel

Secretariat of the Convention on Biological Diversity

Canada

Certification & Marketing, Knowledge Networking, Training and Education, Natural Heritage & Biodiversity

“That sustainability is considered to be linked to quality by tourists and the industry”
